

## Introducing FUELtrac

Companies constantly search for ways to improve their operations, cut costs and drive their dollar further.

A major expense in any large organisation is fuel. It is vital to be equipped with the tools you need to

- negotiate the most beneficial fuel and lubricants supply contracts,
- maximise your fleet's fuel purchasing power,
- monitor fuel and lubricants prices and
- conduct audits and reviews.

**FUELtrac** has the solutions!

## What We Do

**FUELtrac** is a company specifically established to assist businesses and governments to manage their expenditure on fuel and related products. We've improved the purchasing position for many top Australian companies, and large government departments.

Recognised as a leader in our field, **FUELtrac** provides detailed analysis and commentary on all oil company related matters to industry groups, private clients and the media.

Our services are tailored to the specific needs of our clients, and we are happy to discuss your individual situation on an "obligation free basis".

## Our Services

Our extensive range of services covers every aspect of fuel and fleet management.

These include:

**Data Processing** – we capture electronic data from suppliers and reformat this into a wide range of export formats suitable for import directly into accounting and fleet management packages. No more double handling!

**PLUS** – we capture, consolidate, reformat and integrate two or more suppliers' information into a single format.

**Benchmarking** – we measure the performance of your fuel supply contract versus our detailed industry benchmarks, and see how your contract is really performing!

**Transaction Data Auditing** – our unique software systems check every fuel transaction to ensure that you have been billed correctly. **If you are not using FUELtrac you are at risk of being overcharged.**

**Contract Review Services** – we can review your total fuel requirements including card and bulk purchases, delivery, storage and utilisation costs, pricing zones, freight charges and other contract conditions.

**Price Monitoring** – as part of our commitment to providing total pricing transparency in the Australian market, we monitor and report on retail, wholesale and list prices.

## Our Services

**Fuel Sourcing Service** – we negotiate contracts that result in more cost-effective fuel supply solutions.

**Tender Preparation** – we are experts in the preparation and documentation of fuel and related product tenders.

**Tender Evaluation Services** – *FUELtrac* provides a comprehensive tender evaluation service.

**FUELnet™ Web Based Information Services** – our unique web based data distribution system provides easy access to data files and other fuel and fleet management information – anywhere in the world!

**Fleet Management** – we provide advanced vehicle and site information to maximise the potential of your fleet.

**Outsourcing Service** – *FUELtrac* also provides a total outsourcing service for managing your vehicle fleet on a day-to-day basis. This reduces your overheads and frees staff for other important tasks.

**Forecasting Services** – our unique forecasting systems provide you with short and long range forecasts of fuel prices.

## How Can *FUELtrac* Help Me?

*FUELtrac* makes the job of fuel and fleet management easier. If you need fleet and fuel benchmarking, auditing of contract pricing, monitoring or tender management, *FUELtrac* is your single source supplier.

Don't waste time and money – let our expertise and experience in the industry give you the business edge you have been looking for. You can then concentrate on running your business.

## Who Are We?

*FUELtrac* is operated by a team of experts with decades of industry experience. All directors and employees in the company have specialist IT or oil company experience. **We know the industry.**

*FUELtrac* is Australian-owned and operated and all software is developed and written in Australia.

## More Information?

We would love to talk to you about how we can save you time and money – and help you manage your business' fuel or fleet needs more efficiently.
